## Profile

---

Hi, I'm Rajnish Rajan, a final-year BCA student at DSEU University passionate about technology, problem-solving, and creating impactful solutions. Through hands-on projects in structural analysis, surveying, and design, I've built strong technical skills and a sharp eye for detail. I'm driven, curious, and eager to bring fresh ideas and dedication to real-world challenges, contributing value from day one.

## Projects

---

### ExpenseTracker Pro(HTML, CSS, JS) ([GitHub](#) | [Live Demo](#))

"ExpenseTracker Pro is a comprehensive personal finance management system designed to help users track their spending, manage income, analyze financial reports, and split expenses with others. The application features a modern UI with dark mode support, real-time analytics, and secure user authentication".

### PG Management System (Python, Tkinter, Database) ([GitHub](#))

"Developed a comprehensive PG management system using Python and Tkinter, integrated with a database to perform tasks such as user registration, sign-in, room allotment, stay duration and amount calculation, and other essential hotel operations, all within an intuitive GUI".

### Taj Mahal - A Tribute Website (HTML, CSS,JS) ([GitHub](#) | [Live Demo](#))

"A beautiful, interactive HTML/CSS/JavaScript website dedicated to the Taj Mahal, showcasing its architectural magnificence, historical significance, and enduring legacy as a symbol of love."
